EXCROS FOR OFFICERS.

The Board resumed its sittings last evening at the usual hour, and after disposing of a large number of petitions, resolutions, and reports of Committees, proceeded to go into an election for Assistant Clerk, measurers and door-keepers.

The Board being called to order, the election for Assistant Clerk was proceeded with. During the entire balloting, canvassing was carried on in a spirited manner. The ballots being taken, resulted as follows in the election of Charles Johnson.

of 1804, in order that the necessary assumed a separate act, during the present Legislative session.

It appears by the annexed statement from the New York Gas Light Company, (No. 1.) that the extra sum required, from this date to the 31st of December, will be \$4 cm each lamp, which, on 3,000 lamps, is equal \$12,000. The statement from the Manhattan Gas Light Company, (No. 2.) which includes the fitting up and lighting 600 additional lamps, is \$53,305, making a total of \$65,305. Heretofore the Gas Light Companies have been required to keep the lamps burning at the rate of 2,300 hours for the year. By the new arrangement the burning of the lamps is at the rate of 3,800 hours per year. The number of gas lamps to be lighted, say in January, was as follows:

Manhattan Company. 6,655
New York Company. 6,655
New York Company. 600

Total number of gas lamps to be lighted...... 9,255

The copy of a proposition referred to in the estimate of the New York Gas Light Company (No. 1) is also appended to this report, and marked No. 3. The contract with this company, which was made in 1823, expired in May, 1853. The company continued to light the lamps according to the terms of the contract after its expiration, and on the 14th of September last made the proposition before referred to. There was no other bid. This proposition before referred to. There was no other bid. This proposition before referred to. There was no other bid. This proposition before referred to. There was no other bid. This proposition is used to the company for such action as the present Common Council may consider desirable for the city, and just to the company.

As a pecuniary question, the substitution of gas for oil lamps, as far as it is practicable to make the change, it is true economy to do it; and the change will add greatly to the security and accommodation of the inhabitants, who reside in or may visit those portions of the city from which the oil lamps have not been removed.

The draft of an ordinance is herewith submitted, making an appropriation of \$05,305 for the extra cost of lighting the lamps with gas for an additional number of hours, from the present time to the 31st of December next. Some addition to the foregoing appropriation will also be required for oil in lighting the oil lamps for about one-fourth longer time than heretofore. As soon as this estimate can be obtained it will be furnished. About \$15,000, also, will be required to pay rent, in consequence of the destruction of the new City Hall, and the necessity of renting offices, under the resolution of the Common Council.

Respectfully submitted.

A. C. FLAGG, Comptroller.

The New Haven Riot.

[From the New Haven Curier, March 20.]

Our account on Saturday morning, of the previous evening's riot and assault, was up to 12 o'clock. At that time everything was quiet; but we learn soon after the crowd became again riotous, and that two field pieces belonging to the National Blues were brought out and placed upen the Green, and loaded with brick and stones. The police succeeded in "spiking" the guns, and it was found impossible to discharge them. The Mayor, having been informed of the proceedings, repaired to the spot, and, in a few words, called upon the disturbers of the peace to desist, and return quietly to their homes, which they soon after did, without making any further trouble.

A coroner's jury was organized on Saturday afternoon to inquire into the circumstances of 0'Neil's death. We understand the testimony showed that a large number of students attended Homan's Atenaeum in a body on Fridsy evening, and when the exhibition was over they started for the college, walking two by two. A crowd had assembled near the Exchange, which followed the students with noisy demonstrations. When opposite the Park House the crowd commenced polling the students with bricks from a large pile in the street. This continued until they had nearly passed Trinity church, when three or four pistols were fired by the students, the ball from one taking effect in the arm of R. A. Scofield, who was somewhat in the rear of the crowd, and was not a participant in the disturbance. It is supposed by the officers that the other pistols were fired in the air. Very soc a sfer this, O'Niel, who was some twelve or fifteen feet from the students at the time, was seen to fall, and was immediately carried to the watch house, where the watch house, where a complete the students and paparently done with a bow is mife. The testimony thus far does not, we understand, fasten the crime upon any particular is observed. They brought them of the college shound, when the evamed to the college should have a done the students

NEST OF COUNTERFEITERS BROKEN UP AT LOUISVILLE—ARREST OF TWO PERSONS—DISCOVERY OF PLATE AND
ENGRAVERS' TOOLS.—The public officers of this city for
some time had their attention directed to the movements
of certain suspicious characters, in connection with a
somewhat notorious family residing in Jefferson county,
Indiana. On Wedneslay officer Rust, of the Second ward,
accompanied by Mr. Akers, the sheriff of Floyd county,
Indiana, made a descent upon the residence of Ira Johnson, about seven miles back of New Washington. About
the premises they found all the necessary implements for
the successful engraving of counterfeit plates, and one
plate on the Bank of Illinois, for bills of \$1. There was
also a roller and the mechinery for the smelting and coining of apurious metalic currency.

In order to ascertain the exact whereabouts of the
criminal parties in this counterfeiting business, a little
ruse was played by the officers, who despatched the previous day a person to the house to buy an amount of
counterfeit money. Having purchased \$135 in spurious
\$10's on the Ohio State Bank, and \$20's on the Indiana
Bank, he returned and correctly informed the policemen
and sheriff, so that they had no difficulty in turning up
the locality and pouncing on their prey.

The effenders were conveyed to Madison, and having
unde gone a preliminary examination, were remanded to
jail in cefault of security to the amount of \$1,000.

Johnson is quite a young man and a skillul engraver.
His mother was arrested with him as a participant in the
crime. The father and husband is now in the penileutary at Jeffersonville, and has an unexpired term of three
years to serve in that institution. The house of these
prople has been for some time a resort for rogue of all
degrees, and most of the counterfeit money uttered in
this place was bought at wholesale from the Johnsons.—
